

SPECIAL MEETING

INLAND WETLAND AGENCY
SITE WALK MINUTES
CRANDALL PROPERTY, 0 LAMBTOWN ROAD
AUGUST 27, 2012 2:00 P.M.

ROLL CALL

Agency: Scott, Williams, Ashworth
Staff: Jones
Others: J. Ianni

The Agency, Staff, and others met at the site at 2:00 p.m.

The Agency looked at Wetland Area 1, noting that the fill has been removed from the wetland and various wetland shrubs have been planted. They noted that the fill in the upland review area has not been entirely removed, but the bank has been pulled back and is stable.

The Agency looked at Wetland Areas 4, 5, and 6. They noted that the fill had been removed from the watercourses and there was evidence of flow through them. They noted the vegetation that has become established along the roadway.

MOTION: To find that the August 16, 2011 Wetland Remediation Plan as prepared by John P. Ianni of Highland Soils is substantially complete and that the requirements of the August 18, 2008 enforcement action have been met.

Motion by Williams, seconded by Ashworth, so voted unanimously

The Agency thanked Mr. Ianni for his diligence in overseeing the restoration.

The site walk ended at 2:35 p.m.

A handwritten signature in black ink, appearing to read 'David Scott', is written over a horizontal line.

David Scott, Chair
Inland Wetland Agency

Prepared by Deborah Jones
Environmental Planner
